## ABOUT COMPANY

The company DRILLFLOT provides services and repair of top drive system to drilling rigs, internal combustion engine used by oil and gas enterprises and drilling companies. The company has successful experience in realization of the most complex high tech projects. .

DRILLFLOT technical and engineer staff has qualification according to professional standards as well as is regularly trained in specialized training center.

Engineering and technical personnel performs diagnostics, repair and maintenance in accordance with high quality standards:

- ✓ Top drive systems of various manufacturers;
- ✓ Internal combustion engine and transmission systems of any complexity of different grades;
- ✓ Provides services for the installation of fuel consumption control on drilling rigs of various capacities of all manufacturers in the world.

# DRILLFLOT | TOP DRIVE SYSTEM

DRILLFLOT provides advanced range of services for electric and hydraulic top drive systems of such manufacturers as

VARCO, TESCO, CANRIG, TPEC, NorDrill, DRILLMEC, BENTEC, JH.

OUR COMPANY PROVIDES THE FOLLOWING TYPES  
OF TOP DRIVE SYSTEM SERVICES:

ROUTINE AND MAJOR REPAIRS.

TOP DRIVE SYSTEM SERVICE MAINTENANCE  
IN THE PROCESS OF WELL CONSTRUCTION WITH  
THE PRESENCE OF SPECIALISTS DURING 24 HOURS.

TECHNICAL AUDIT.

SERVICE SUPPORT UPON  
CUSTOMER REQUEST.

## TOP DRIVE SYSTEM

Since 2014, our company has been providing services in the fields of Russian Federation and continues to serve top drive system with the constant presence of specialists at the fields according to signed framework agreements with major customers in Russia and the Republic of Kazakhstan.

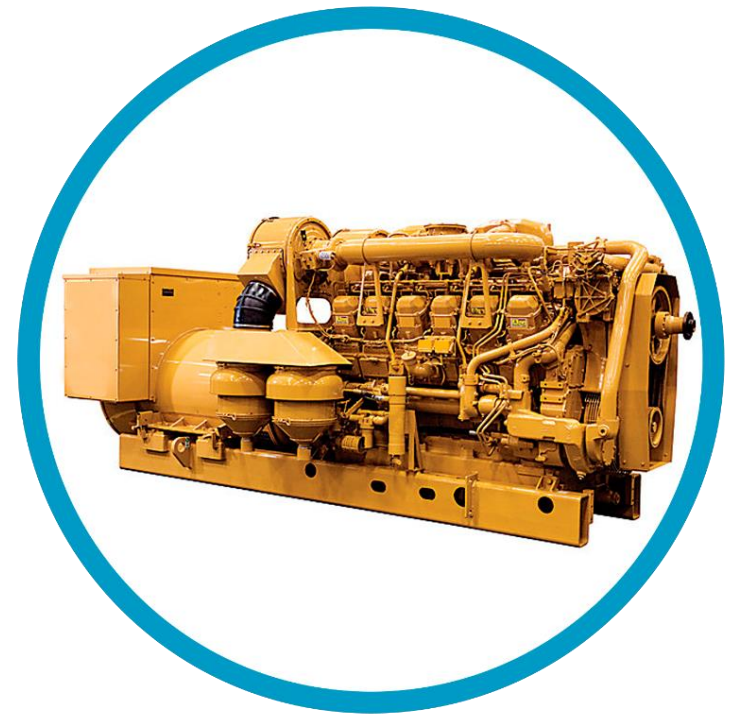

DRILLFLOT

## INTERNAL COMBUSTION ENGINE

DRILLFLOT provides the extended range of services on internal combustion engine repair and maintenance of such manufacturers as Volvo Penta, Caterpillar, Cummins, Chidong, DDDL, ALLISON, ZF, as well as Russian manufacturers of internal combustion engine systems.

DRILLFLOT

## INTERNAL COMBUSTION ENGINE

OUR COMPANY PROVIDES THE FOLLOWING TYPES  
OF INTERNAL COMBUSTION ENGINE SERVICES:

ROUTINE AND MAJOR REPAIRS.

THE SERVICE MAINTENANCE OF DIESEL POWER PLANTS  
AND MUD PUMPS' INTERNAL COMBUSTION ENGINE IN  
THE PROCESS OF WELL CONSTRUCTION WITH THE  
PRESENCE OF SPECIALISTS DURING 24 HOURS.

TECHNICAL AUDIT.

SERVICE SUPPORT  
UPON CUSTOMER REQUEST.

Our company has launched a new project in the international market. DRILLFLOT ASIA is the only enterprise in the territory of the Republic of Uzbekistan engaged in the production, repair and supply of high pressure hoses with maximum diameter to 150mm.

High pressure hoses of various types and sizes are available: diameter from 4 mm to 102 mm (including drilling) and industrial up to 150 mm.

Our customers are users of the equipment with hydraulic devices, as well as large industrial enterprises of oil and gas, chemical and food, agricultural, railway, automotive and aviation industries and others.

High-pressure hoses manufacture is a complicated technological process. The use of high-tech and unique equipment of the German company UNIFLEX helps to achieve proper product quality, that provides a competitive advantage for our company in this segment.

The company «DRILLFLOT ASIA»  
provides a high quality of its products:

STRICT CONFORMITY OF PRODUCTION  
TECHNOLOGIES IS OBSERVED.

QUALITY CONTROL OF THE PERFORMED WORKS  
IS CARRIED OUT DURING ALL STAGES  
OF PRODUCTION.

THE TEST FACILITY OF THE SHOP ALLOWS TO TEST  
FINISHED HIGH-PRESSURE HOSES BOTH IN STATIC  
AND DYNAMIC MODE.

PROFESSIONAL SKILLS OF OUR SPECIALISTS  
ARE CONFIRMED BY UNIFLEX CERTIFICATE.

The main advantages of high pressure hoses of our company are:

- ✓ exceptional durability;
- ✓ guaranteed tightness;
- ✓ wide range of operating temperatures;
- ✓ expanded assortment;
- ✓ improved mechanical characteristics;
- ✓ ability to withstand high pressure;
- ✓ resistance to aggressive environments;
- ✓ ability to work with a wide range of working fluids.

The product range is constantly expanding and improving.

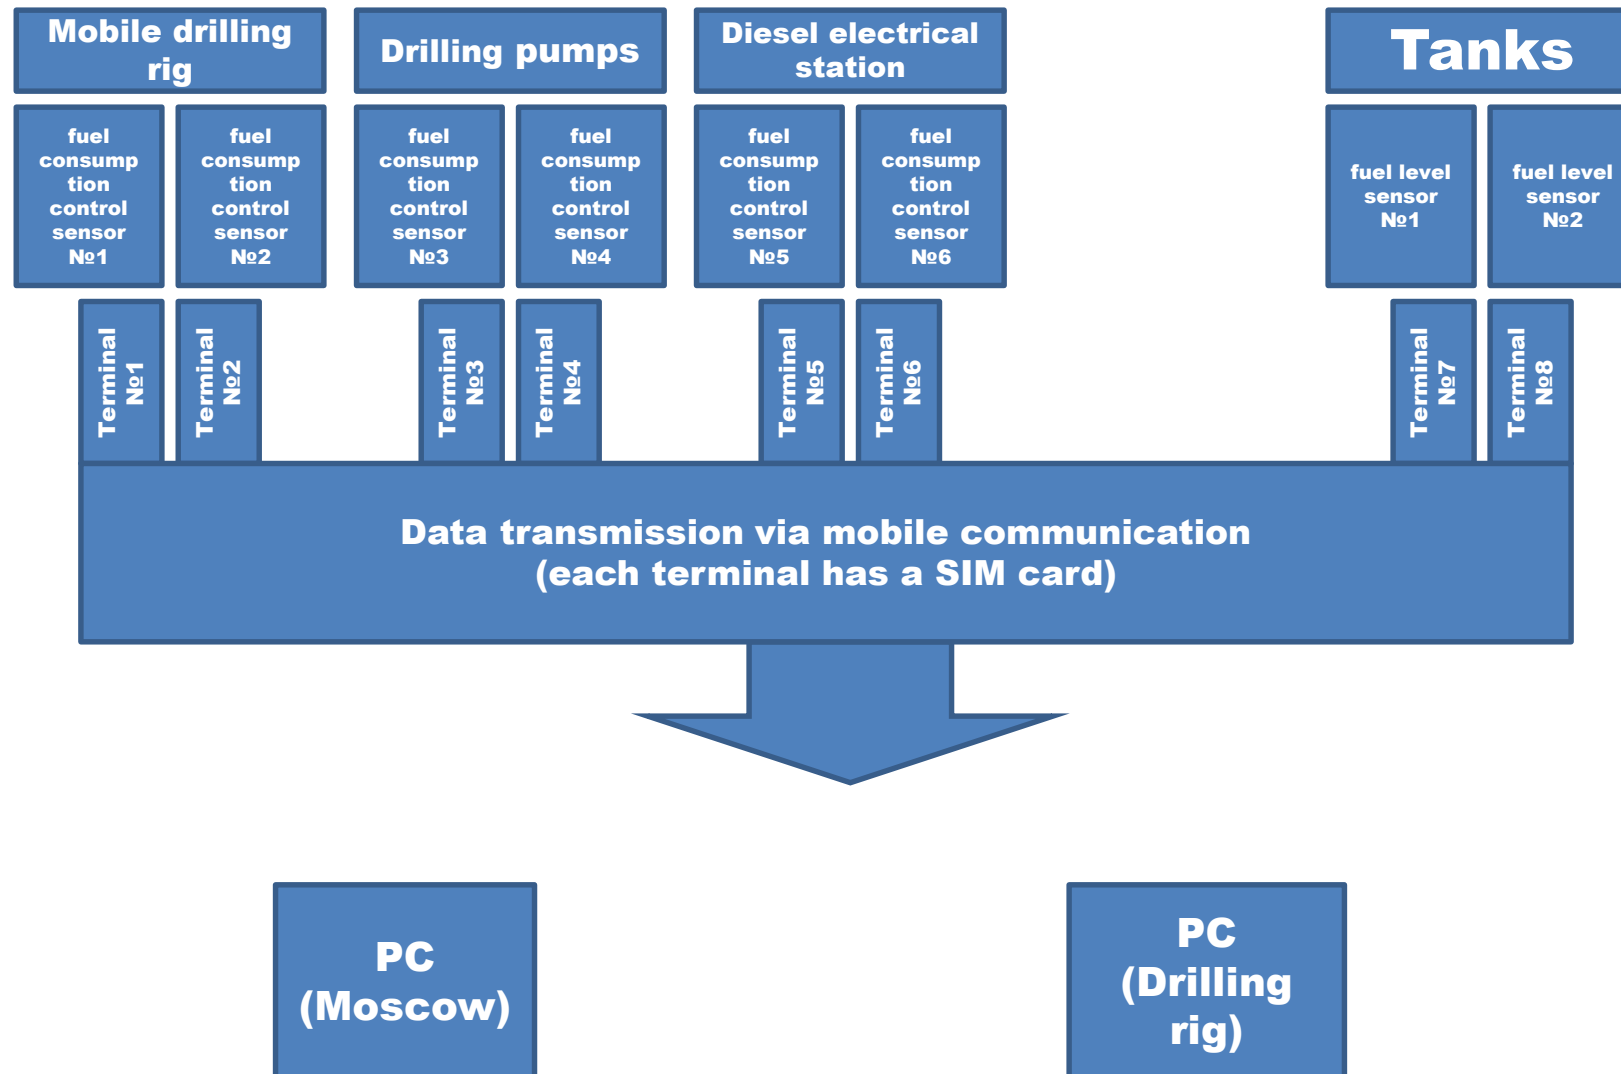

The products are certified and meet the requirements of GOST 6286-73, GOST 25452-90 .

According to the specification of the customer high pressure hoses of all sizes, configurations and with different types of fittings can be manufactured the same day.

DRILLFLOT provides services on fuel consumption control for mobile and fixed drilling rigs with the connection of the whole fuel system.

DRILLFLOT has repair bases and production shops  
in Tyumen, Tolyatti, Orenburg.

## EQUIPMENT SUPPLY FOR THE COMPANIES OF OIL AND GAS INDUSTRY

Our company DRILLFLOT provides the supply of equipment and spare parts of wide range for the need of oil and gas companies.

COOPERATION WITH DRILLFLOT  
HAS A NUMBER OF ADVANTAGES:

CONTINUOUS TOP DRIVE SYSTEM  
MAINTENANCE ACCORDING TO SIGNED  
FRAMEWORK AGREEMENTS.

FIXED MAINTENANCE COSTS.

FIXED PRICES FOR DURATION OF THE  
CONTRACT.

THE SUPPLY OF REQUIRED SPARE PARTS  
FOR THE SHORTEST POSSIBLE TIME.
